New

in 1986 Nursing Citation Index™ as part of AJN International Nursing Index

NOW

more precise access to the nursing literature.

This new two-in-one resource tool provides educators, students, researchers and clinicians with information not otherwise located through ordinary reference checks.

HOW

INI, the most comprehensive bibliographic summary of nursing literature, indexes over 200 nursing journals from the US and abroad plus more than 2,600 other professional magazines worldwide.

NCI™ takes this information a step further by listing where articles are used as references. This identifies additional current literature on the same and related topics and extends and enhances your literature search.

NCI™ is created by the Institute for Scientific Information® and presented in each quarterly issue of INI beginning in 1986.
